We will then use a 'bar modelling' strategy to help us calculate non-unit fractions of amounts. Finally, we will then work backwards by applying this knowledge to use the value of the parts to help us calculate the total value of the quantity (whole).</p>	<p>Warm up https://www.topmarks.co.uk/maths-games/hit-the-button or try one of the maths games on this site</p> <p>https://classroom.thenational.academy/lessons/consolidating-finding-non-unit-fractions-of-quantities-6rwk8t In this lesson, we will use our knowledge of fractions to consolidate finding non-unit fractions of a given quantity</p>	<p>Warm up https://www.topmarks.co.uk/maths-games/hit-the-button or try one of the maths games on this site</p> <p>https://classroom.thenational.academy/lessons/comparing-fractions-with-the-same-denominator-c4vkar In this lesson, we will start to use pictorial representations to help identify and compare the size of fractions with the same denominator.
